```
    E                            B7
I woke up still not dead again today
        B7                       E
The internet said I had passed away
E                        A
If I died I wasn't dead to stay
   B7                            E
I woke up still not dead again today
```

```
      E                              B7
Well, I woke up still not dead again today
     B7                          E
The gardener did not find me that a-way
     E                              A
You can't believe a word that people say
       B7                            E
And I woke up still not dead again today
```

```
    A                             E
I run up and down the road making music as I go
     B7                          E
They say my pace would kill a normal man
         A                       E
But I've never been accused of being normal anyway
      B7                         E
And I woke up still not dead again today
```

SOLO |E   B7   B7   E  |  E   A   B7   E|

```
   E                                    B7
I woke up still not dead again today
     B7                              E
The news said I was gone to my dismay
        E                            A
Don't bury me, I've got a show to play
        B7                              E
And I woke up still not dead again today

       A                              E
I run up and down the road making music as I go
      B7                                 E
They say my pace would kill a normal man
           A                         E
But I've never been accused of being normal anyway
         B7                           E
And I woke up still not dead again today
         A                           E
Last night I had a dream that I died twice yesterday
         B7                          E-1   A-1  E-1  A-1
But I woke up still not dead again today
E-1   A-1  E-1  [E]
